Current students of Russian and Belarusian nationality will pay a lower tuition fee in the academic year 2023-2024. This concerns an extension of the reduced institutional rate in academic year 2023-2024 for the group of Belarusian and Russian students who re-enrolled in academic year 2022-2023 for the study programme for which they were enrolled in academic year 2021-2022 and who have already paid the adjusted institutional rate in that academic year.
